**Some of Valued Clients**

**B2B MODULE**

TravelPro B2B is designed for those Umrah Operators who opt to sell umrah packages online by B2B channels. This software allows your business partners to book umrah packages online. It is integrated with TravelPro back-office software and utilize your tariff database for umrah package pricing.

**HOTEL MODULE**

PilgrimManage is web based software which is specifically designed for those umrah organizers who have their own setup in Saudi Arabia in terms of complete hotel premises or specific room/floor allocation in certain hotels.
